

## FREE Physics Subject Specialism Training

People teaching out of specialism ✓

People returning to the profession ✓

The 6-day course covers KS3 & 4 content.

The course aims to:

- improve physics subject knowledge of participants
- increase confidence to support effective practical work to engage learners in physics topics
- develop effective pedagogical approaches to improve pupil learning and progress

The practical component of the new GCSE specification will also be covered. Online support and in-school coaching will be available between sessions.

Jackie Flaherty, the course leader, has 24 years of experience of teaching Physics and is an Ogden Trust Teacher Fellow responsible for their National CPD scheme which has received outstanding evaluations from Cambridge University Education Department. She has been awarded the Salters Horners' Prize for A-level Physics and a "Let Teacher's SHINE" Award. She has completed the Outstanding Teacher Programme.

## Programme Details

2016-17

25<sup>th</sup> November - Energy

12<sup>th</sup> January – Forces & Motion

22<sup>nd</sup> February - Waves

7<sup>th</sup> April – Electricity & Magnetism

26<sup>th</sup> May - Matter & Space

29<sup>th</sup> June – Applications of Physics

09:30-15:00

## Location: Chipping Campden School

TSST Bursary: £400 payable to your school on completion of the course (all 6 days attended)
